

# CARDSTATION

smart3000-CA

## Self-servis instant card printing system

Credit Card, City Cards, Customer Cards, Membership Cards, Campus Cards, Pass Cards...

The Cardstation model of the Smart3000-CA series is an complete solution allowing Self-service card applications and instant personal card printing. Users can apply by entering necessary information on the kiosk's touch-screen and by scanning their ID cards -if necessary- and entering their signature on the touch-screen. If desired, CardStation can also take a picture of the user and print it on the card.

CardStation provides various printing options such as single or double side printing and full-color or single color printing. The product provides advanced solutions by allowing customers to print their own credit cards, ID cards, security passes, membership and pass cards with its superior features. The self-service coding and customization of magnetic band, Smart Card and Mifare cards are performed within a single, integrated system.
